HERITAGE TALES

Three journeys, one destination - the heart of the artisan. Immerse your living space in a tapestry of cultural narratives with three unique collections. These three collections transport you to a place of historical beauty and rich cultural heritage. From the English Glasshouse's celebration of the charm of the countryside, inspired by lush meadows and heritage designs, to the Folk Tale Collection's homage to global traditional patterns, including influences from Persia and Paris, each collection reflects a timeless elegance.

Embark on a global journey with the Global Treasures Collection, capturing the beauty and essence of ancient worlds like the Mughal empire and forgotten Indian gardens.
